

PRODUCT FOCUS

Combustion & EFI System Cleaner

What does it help do?

- Environmental conditions, driving habits or poor quality gasoline can cause build-up in your vehicle's fuel and combustion systems, compromising both fuel economy and performance.

Benefits

- Restores efficiency to the EFI system.
- Oxygen sensor and catalytic converter safe.
- Helps improve fuel economy.
- Creates a combustible emulsion of gasoline and water.

<http://lexusinsidelook.ca/combustion-efi-system-cleaner/>

- The service cleans and eliminates contaminants and deposits in the combustion chambers and on intake and exhaust valves.

When to use it?

Every 80,000 kilometres or if performance issues exist.

- Controls moisture produced by condensation in the fuel system.

Benefits

A two-step 360° fuel system cleaning process performed by Lexus Certified Technicians.
